

KIS[®]

KEEP IT SIMPLE

DESKTOP TICKET MACHINES

The **KIS[®] DT30** is a simple, **low cost, efficient**, stand-alone thermal ticket printing system. You can **custom print tickets** in seconds with date, time, price, and up to 999 categories. The unit is lightweight, **portable** and requires only a standard power outlet for operation.

Auditing is **easy and secure**, as PIN number control allows only authorized personnel access to the numerous management functions

within the system. You have **total control**, as the system keeps track of both individual user activity as well as overall machine use.

With this **simple to operate** machine, you can eliminate that deadwood and custom print your tickets on-demand in just seconds.

Give us a call today to get started! You can also visit us on the web at **www.wwlinc.com**.
