

# PROPERTY IDENTIFICATION LABELS

*For numerical control of inventory and identification of equipment.  
These labels will adhere permanently to painted surfaces, glass and metal.*

## AVAILABLE IN YOUR CHOICE OF:

**LoXon** Metalized bright silver film that has been treated with a special coating in a tamper resistant pattern. This pattern appears when an attempt is made to transfer a properly applied LoXon Label.

**PLASTICK®** White, destructable 2 mil vinyl. Extremely difficult to remove intact. Conforms to irregular surfaces.

For two color labels choose P2, P3 or P4. The more economical one color label is P1. Your wording and consecutive number on all four will be in black.

The pressure sensitive labels are easy to use as they require no moistening. Once applied they are extremely difficult to remove without leaving evidence of tampering.

Any of the labels shown are furnished as individual labels 2" x 1" with an additional 1/2" peel tab or as strips of ten labels 2" x 10.5" including the 1/2" tab at the top. All are coated after printing with clear water proofing gloss that also adds scuff resistance.

All material and workmanship guaranteed to your satisfaction for a year.

Colors available for P2, P3 and P4 are Red, Light Green, Light Blue, Magenta, Orange, Brown, Yellow, Dark Blue, Teal, Silver, Dark Green. A lighter background color on the P2 and P4 designs makes the labels more legible and is suggested.

Unusually numbered stickers in many other sizes, colors and shapes are available. Please describe your needs and we will answer promptly.

Four attractive stock designs in economical one or two color labels.

These Five Labels Are Shown Half Size Actual Size 2.5"x1"

The Strip is Shown Half Size Actual Strip Size 2" x 10.5"
